| <b>Akrion Procedures:</b> | OP2042_A - GAMA/V3 and Clear IQ Wet Chemistry Filter Recommendations |  |   |

**Issue:** Confusion over which filter elements are recommended by Akrion for various process chemistries. Conflicting and/or outdated recommendation lists existing in the field. No set method of formally updating the filter recommendation list.

**Symptoms:**

**Test/Validate**

**Solution:** The official listing of Akrion Recommended Filter Elements for GAMA, V3, and I-Clean wet stations is now a controlled document – OP2042. The information in this document has been reviewed and approved by the Akrion Process Department and Technical Support Department.

Please refer to the current rev of OP2042 for the most up to date filter recommendations.

If you have technical questions or require more information, please contact Akrion Technical Support Department via e-mail at [techsupport@akrion.com](mailto:techsupport@akrion.com). Authorized service personnel can obtain copies of the latest Akrion procedures and controlled documents from the Akrion Document Control department at [doccontrol@akrion.com](mailto:doccontrol@akrion.com). Customers must direct all inquires to their local Akrion field service representative. (Form QA1656F1AC)
