**Issue:** Activation of Single Lot Processing mode due to changes to the systems computer hardware on Version 6.06.001 or later. Causes include, but are not limited to, computer expansion card failure or computer expansion card replacement.

**Symptoms:** Unable to process multiple lots in the system. Authentication Code expired.

**Solution:** Fill out and return Code Request Form (next page) to Tech Support or Software Engineering departments for a new authorization code.

Input the new authorization code to unlock the system.
